

BEGINS AUTUMN 2022

FACT SHEET: APPRENTICESHIP IN THE HEALING ARTS PROGRAM

THE ANAMCARA APPRENTICESHIP offers a contemporary model of training for care providers of every background, lay and professional. The purpose of the program is to deepen the quality of relationships and enable caregivers to become “compassionate companions” through all the stages of living and dying. The Apprenticeship Program applies the tools and lessons from the world’s sacred art of living and dying traditions in all aspects of life, particularly aging, loss, serious illness, and the end-of-life. As a result of this program, apprentices will re-introduce time-tested wisdom and skills within the modern culture of health care including hospice and palliative care. Work of the Apprenticeship can also be applied in faith communities of all traditions— as well as in our educational and social institutions.

THE ANAMCARA APPRENTICESHIP builds on four pillars over the two-year program. The focus of Year One includes the pillars of **Spirituality and Community** with practices designed to build on one’s own spiritual practices within the context of a sacred community (Ceili De). The focus of Year Two includes the pillars of **Skillfulness and Mentorship** through monthly webinars with internationally renowned mentors and the design of a supervised practicum project.
