A REMARKABLE LOCATION

The incomparable natural beauty of the Desert South West is complemented by a rich cultural tapestry of the old American West blended with the living Native and Hispanic cultures. Truly this part of North America is where the old and new worlds meet. Our tour will offer ample time to learn, savor and explore the cultural richness and natural beauty of **NEW MEXICO**: *the land of enchantment*, the sacred Navajo Mesa Lands of **ARIZONA** and the incomparable majesty of the southern Rocky Mountains of **COLORADO**. Just being in this unique corner of the world teaches us something we have all but forgotten—*how to simply be*. Sampling *nueva cocina mexicana*, world music and native arts will also be an essential part of the experience together with opportunities for exploring the dramatic natural landscapes of America's most unique national-cultural parks.

UNIQUE ACCOMMODATIONS & WORLD CLASS SITES

In addition to three nights in **Old Town Albuquerque** our tour will enjoy World Class Accommodations for four nights at **La Fonda Resort in Santa Fe**, the oldest continuous hotel in North America which offers *five-star accommodations* and amenities. We will also enjoy an adventure into Chaco Canyon, sacred ceremonial and astronomical center of ancient Puebloan culture-- with breathtaking views of the world's largest ancient cliff dwellings. Finally, we will spend three days exploring the **Monument Valley National-Tribal Park** region on the Arizona-Utah border. Staying at the historic **Goulding's Lodge** is a walk back in time as many of the most famous Western movies were filmed in the exact location where you will eat, sleep and explore with Monument Valley canyons in your backyard. Our tour includes specially arranged visits to **World Heritage Acoma Sky City & Taos Pueblos**, the oldest continuously inhabited communities in North America.

ENCOUNTER, LEARN & CELEBRATE

Historian **Richard Groves** with local expert guides will facilitate daily historical walks, teachings and inspiring cultural celebrations related to the many sacred sites and diverse heritage of the South West. At the healing pilgrimage site of **Chimayó** we will engage with a unique *mestizaje* or blending of ancient **Native Pueblo Culture** with the heritage of **16th century Spanish Christianity & Sephardic Jews**.
